Mustafa Kemal thoroughway, 2222. Street, no: 7, Apt: 5, 100. yil neighborhood, Bagcilar/ Istanbul, 34204, Istanbul, Turkey

About me:

Hi, my name is Ziya. I'm a Web Developer who dedicated himself in React, React Native and Nodejs technologies. I offer creative and user-friendly approaches to solving problems. With my trusted solutions, I can develop user friendly creations. I'm experienced both working as a team and by myself. I'll give you a flexible use since I'm experienced both Backend and Frontend. I finish what I start. I prefer creative and innovative solutions. I take my job seriously, but I have a very good sense of humor.

I did my internships at Uzman CRM and SNI Technology, and my internship at SNI Technology was very important in shaping my career. I graduated from the Duzce University in July 2022, and as a completion project, my friend and colleague, and I developed a project for Dynamified QR codes with React Native, Mongoose and Nodejs technologies, which was certified by our Dean and our Department head. Based on the idea that blockchain technology could be integrated into all areas of life rather than just cryptocurrency, I and a few friends and colleagues started a company, and we applied Tubitak and various fund-raisers. We created a demo on our project with technologies from React, Nodejs and Socket.io. I've worked, or contributed to the projects I mentioned above and many small projects as well.

In my spare time, I play various video games, read fiction books, deal notoriously with clay sculpting, draw pixel arts, and workout regularly at home. I love dealing with plants. I like to learn new things, so I'm currently eager to learn photoshop. I love animals, and I'm a cat person.

● WORK EXPERIENCE

08/07/2020 – 08/08/2020 – Istanbul, Turkey

INTERN – SNI TECHNOLOGY

This job was my first internship. I mainly focused on my projects rather than companys' and improved myself at C# and Unity.

12/07/2021 – 12/08/2021 – Istanbul, Turkey

INTERN – SNI TECHNOLOGY

SNI Technology is a regulation compliance partner company and I worked at the department of the Frontend Soutions. My tutor was Sr. Canfer Beyazal and we build a React Native Project.

● PROJECTS

Personal QR Codes

https://github.com/ziya-karagoz/Personal_QR

A project about Dynamic QR codes. With this project, user can create a QR code and despite of the image of QR code stay still, message inside of QR code can be changed and used continuously.

Document Transfer App (Blockchain)

<https://github.com/mnsgl/test>

We used a blockchain logic web and managed to transfer documents between users via this very blockchain system.

Recycle Mapp

<https://github.com/ziya-karagoz/TrashCanApp>

A mobile app that can Display the location, type (glass, paper, plastic), photograph and description of a trash can.

Social App

<https://github.com/enesbilalseker/socialapp>

A mobile app that users can set and join activities.

Infinite Bouncer

<https://play.google.com/store/apps/details?id=com.AftermathGames.InfiniteBouncer>

Mobile Casual Game developed with Unity

Gone Hat

<https://github.com/ziya-karagoz/GoneHatGithub>

A Mobile Casual Game developed with Unity

Football Score Prediction App

<https://github.com/ziya-karagoz/skor-tahmin-app>

A mobile app developed with React Native and Firebase

Personal QR App's Server

<https://github.com/ziya-karagoz/PQRServer>

Server of my "Personal QR" application developed with Nodejs, Expressjs and Mongoose ODM

● CREATIVE WORKS

Clay Sculpting

I'm recently learning clay sculpting, after I feel myself sufficient I'm going to sculpt some characters from the games I played or the books I read.

Pixel Art

I draw pixel characters in my free times

● DRIVING LICENCE

Driving Licence: B1

Driving Licence: B

● HOBBIES AND INTERESTS

Variaty Gamer

I play various games. Story based, rogue like, slasher, strategy. Nearyl all kind of games are welcomed for me.

<https://steamcommunity.com/profiles/76561198253988865/>

● HONOURS AND AWARDS

06/06/2022

certificate of achievement – Duzce University

My project "Personal QR" achieved best 3rd project among all other students
