## WORK EXPERIENCE

**12/09/2021 – 12/10/2021** – Istanbul, Turkey

### Internship

SNI Technology

The SNI Technology company is a SAP consultant and offers solutions to various companies on tax modeling. So during my internship, I worked with the team who was in charge of applications at the frontend of the company. I have fulfilled the tasks my authority has assigned me and developed a user*logın based soccer score forecast app with React Native through my internship.

## PROJECTS

**10/10/2021 – CURRENT**

### Document Chain System

Blockchain system that can securely move documents between companies with ReactJs and NodeJS. Now system use only the logic of blockchain. Soon we are going to implement our system to a blockchain web.

**08/05/2021 – 16/07/2021**

### Chat App

A real time chat-social media app with using Socket.io

**04/10/2020 – 12/12/2020**

### Car Rental Application

Car Rental System application developed using Dotnet web application and SQL

### Infinite Bouncer - Gone Hat

https://github.com/ziya-karagoz/InfiniteBouncerGithub https://github.com/ziya-karagoz/GoneHatGithub
A few mobile games I made using Unity and C# (Infinite Bouncer is on the Google Play Store FYI)

### Football Forecats App

https://github.com/ziya-karagoz/skor-tahmin-app
Football forecast app with using React Native at frontend and Google Firebase at backend

**11/11/2021 – CURRENT**

### Personal QR

https://github.com/ziya-karagoz/Personal_QR
Personalizable QR code application that can generate dynamic QR codes
